

## TV socket outlet 4hole single

459410

### Functions

---

- Suitable for HDTV
- 

### Connectivity

---

- remote supply via F-sockets
  - with 2 independent SAT outputs (F-sleeves) and 2 IEC outputs (male/female)
  - for terrestrial reception
  - for digital and analogue transmission
- 

### Voltage

---

- DC voltage conducting
- 

### Installation, mounting

---

- for community and broadband cable systems
  - for single and distributor SAT systems
  - for multi-switch systems
- 

### Connection

---

- for simultaneous connection of radio and TV receiver as well as 2 independent SAT receivers
  - with screw terminals
- 

### Settings

---

- also to add SAT programmes in broadband cable systems
- 

### Equipment

---

- external eyelets on the supporting ring can be broken off for round designs
-

**Use**

---

- DC-permeable

---

**Standards**

---

General standards EN 50083-2 and EN 60728-4

---

**Safety**

---

Protective screen (VHF/UHF) according to EN 50083-2, Class B, (SAT) according to EN 50083-2, Class A

---

**Use conditions**

---

Operating temperature -25 55 °C

---

**Identification**

---

Application, usage Communication technology  
Main design line Communication technology
