

A man with short, wavy brown hair and a light beard, wearing a teal t-shirt, is looking intently at a tablet computer. He is leaning forward, and his hands are visible at the bottom of the frame. The background is a blurred office environment with modern furniture and lighting. The text "The partner for smart solutions you can trust" is overlaid on the right side of the image in a blue, sans-serif font.

We believe in courage, authenticity and integrity

These values have helped shape our business and put people at the heart of our success. In line with these principles, we have been a member of the UN's **Global Compact** since 2007, underlining our enduring commitment to sustainable and socially responsible policies.

We believe a responsible approach is essential when it comes to **Ethics, Environment and Energy**. That's why we focus on continually improving our employees' wellbeing and promoting waste reduction and energy efficiency.

We make you feel better at home

For us, innovation is not just a catchword. It's something we're passionate about. We want to help people live and work in more comfortable and secure environments – both now and in the future. That's why we design solutions that adapt to your changing needs and desires over time. Our aim is to make electrical installations more flexible and sustainable so you can always enjoy the ideal conditions at work and at home.

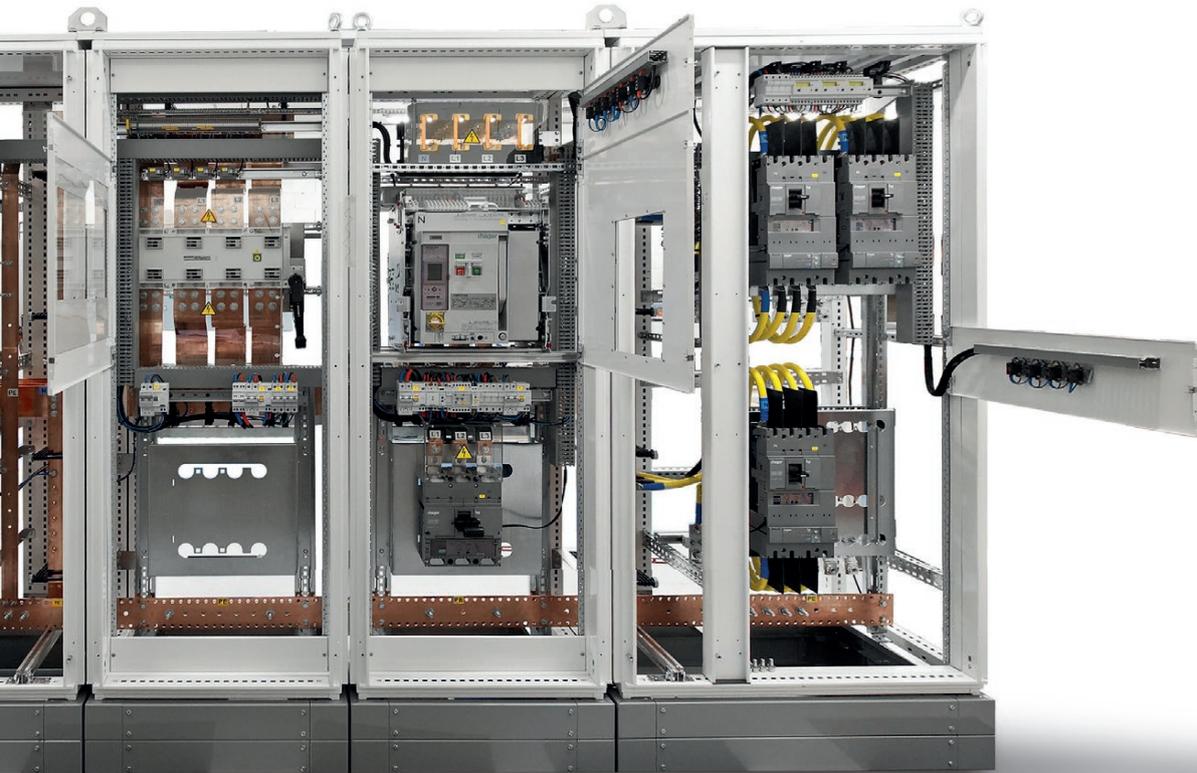

The specialist for your electrical installations

Right from the start of your project, we can help you with planning and budgeting. And we can supply all the electrical infrastructure components you need for any residential or commercial building. We'll work alongside you, tailoring each solution to your needs.

By providing a single source for all your electrical installations, we make your life simpler. Which means you can be confident your project will be completed on time and on budget – just the way you want.

We provide a complete range of solutions for safe electrical installations

Our solutions and services cover everything from energy distribution and cable management to office equipment, switches and sockets, as well as home automation. We also offer leading safety and security technology, such as alarm systems and detectors.

Energy distribution

We provide reliable and easy to install distribution boards and protection devices such as flush or surface mounting enclosures, MCBs, auxiliaries and accessories, RCDs, RCCBs, RCBOs, HRC fuse carriers, motor starters, earth fault relays and surge protection devices.

:hager

Cable management

We offer installation solutions for floors, walls and ceilings allowing provisions of energy and data where they are required.

Building automation

We connect building appliances such as heating and lighting systems, shutters and blinds, thus allowing you to save energy.

Security

We enhance security at home with technology control centres and door communication systems, as well as alarm systems, heating controls and detectors.

Members of Hager Group

We are a family of strong brands. Our solutions are designed from function to emotion, based on our vision and deep identity. Therefore they are useful, simple, elegant, sensitive and sincere.

B.
Berker

With the Berker range of switches and systems, intelligent engineering meets outstanding aesthetics. Thanks to their elegant design and high technical standards, our Berker products have been awarded multiple prizes and are used in some of the most prestigious buildings around the world. They are also extremely versatile – so, whatever your project, you'll always find the right solution.

DAITEM

Daitem's range of alarm and security systems is designed for security specialists. The brand pioneered the use of wireless technology in alarm systems, and continues to deliver innovative technology that ensures the security of both homes and offices.

EFEN 

Efen products make your energy distribution systems safe. Our range of solutions includes low voltage transformers, NH fuse links and NH fuse switches, in both horizontal and vertical designs – all built to the highest standards with both IEC and DIN certification.

ELCOM.

With Elcom's state-of-the-art communication systems, you can offer residents comfort and peace of mind. Whether you're looking for a cutting-edge video system, door intercom, Elcom delivers secure communication solutions for all types of building.

diagral

Diagral is one of Europe's leading brands for wireless alarm systems in the do-it-yourself sector. Diagral products are designed to be easy to use and install, allowing you to protect any home quickly and reliably.

BOCCHIOTTI

Bocchiotti offers a wide solution range for cable management including trunking systems, pliable and rigid conduits, enclosures and junction boxes – for both domestic and industrial use.

This is the future

We are already tackling tomorrow's challenges and transforming them into opportunities. Our experts focus on the issues that will shape the future:

**Smart
home**

**Ambient
assisted
living**

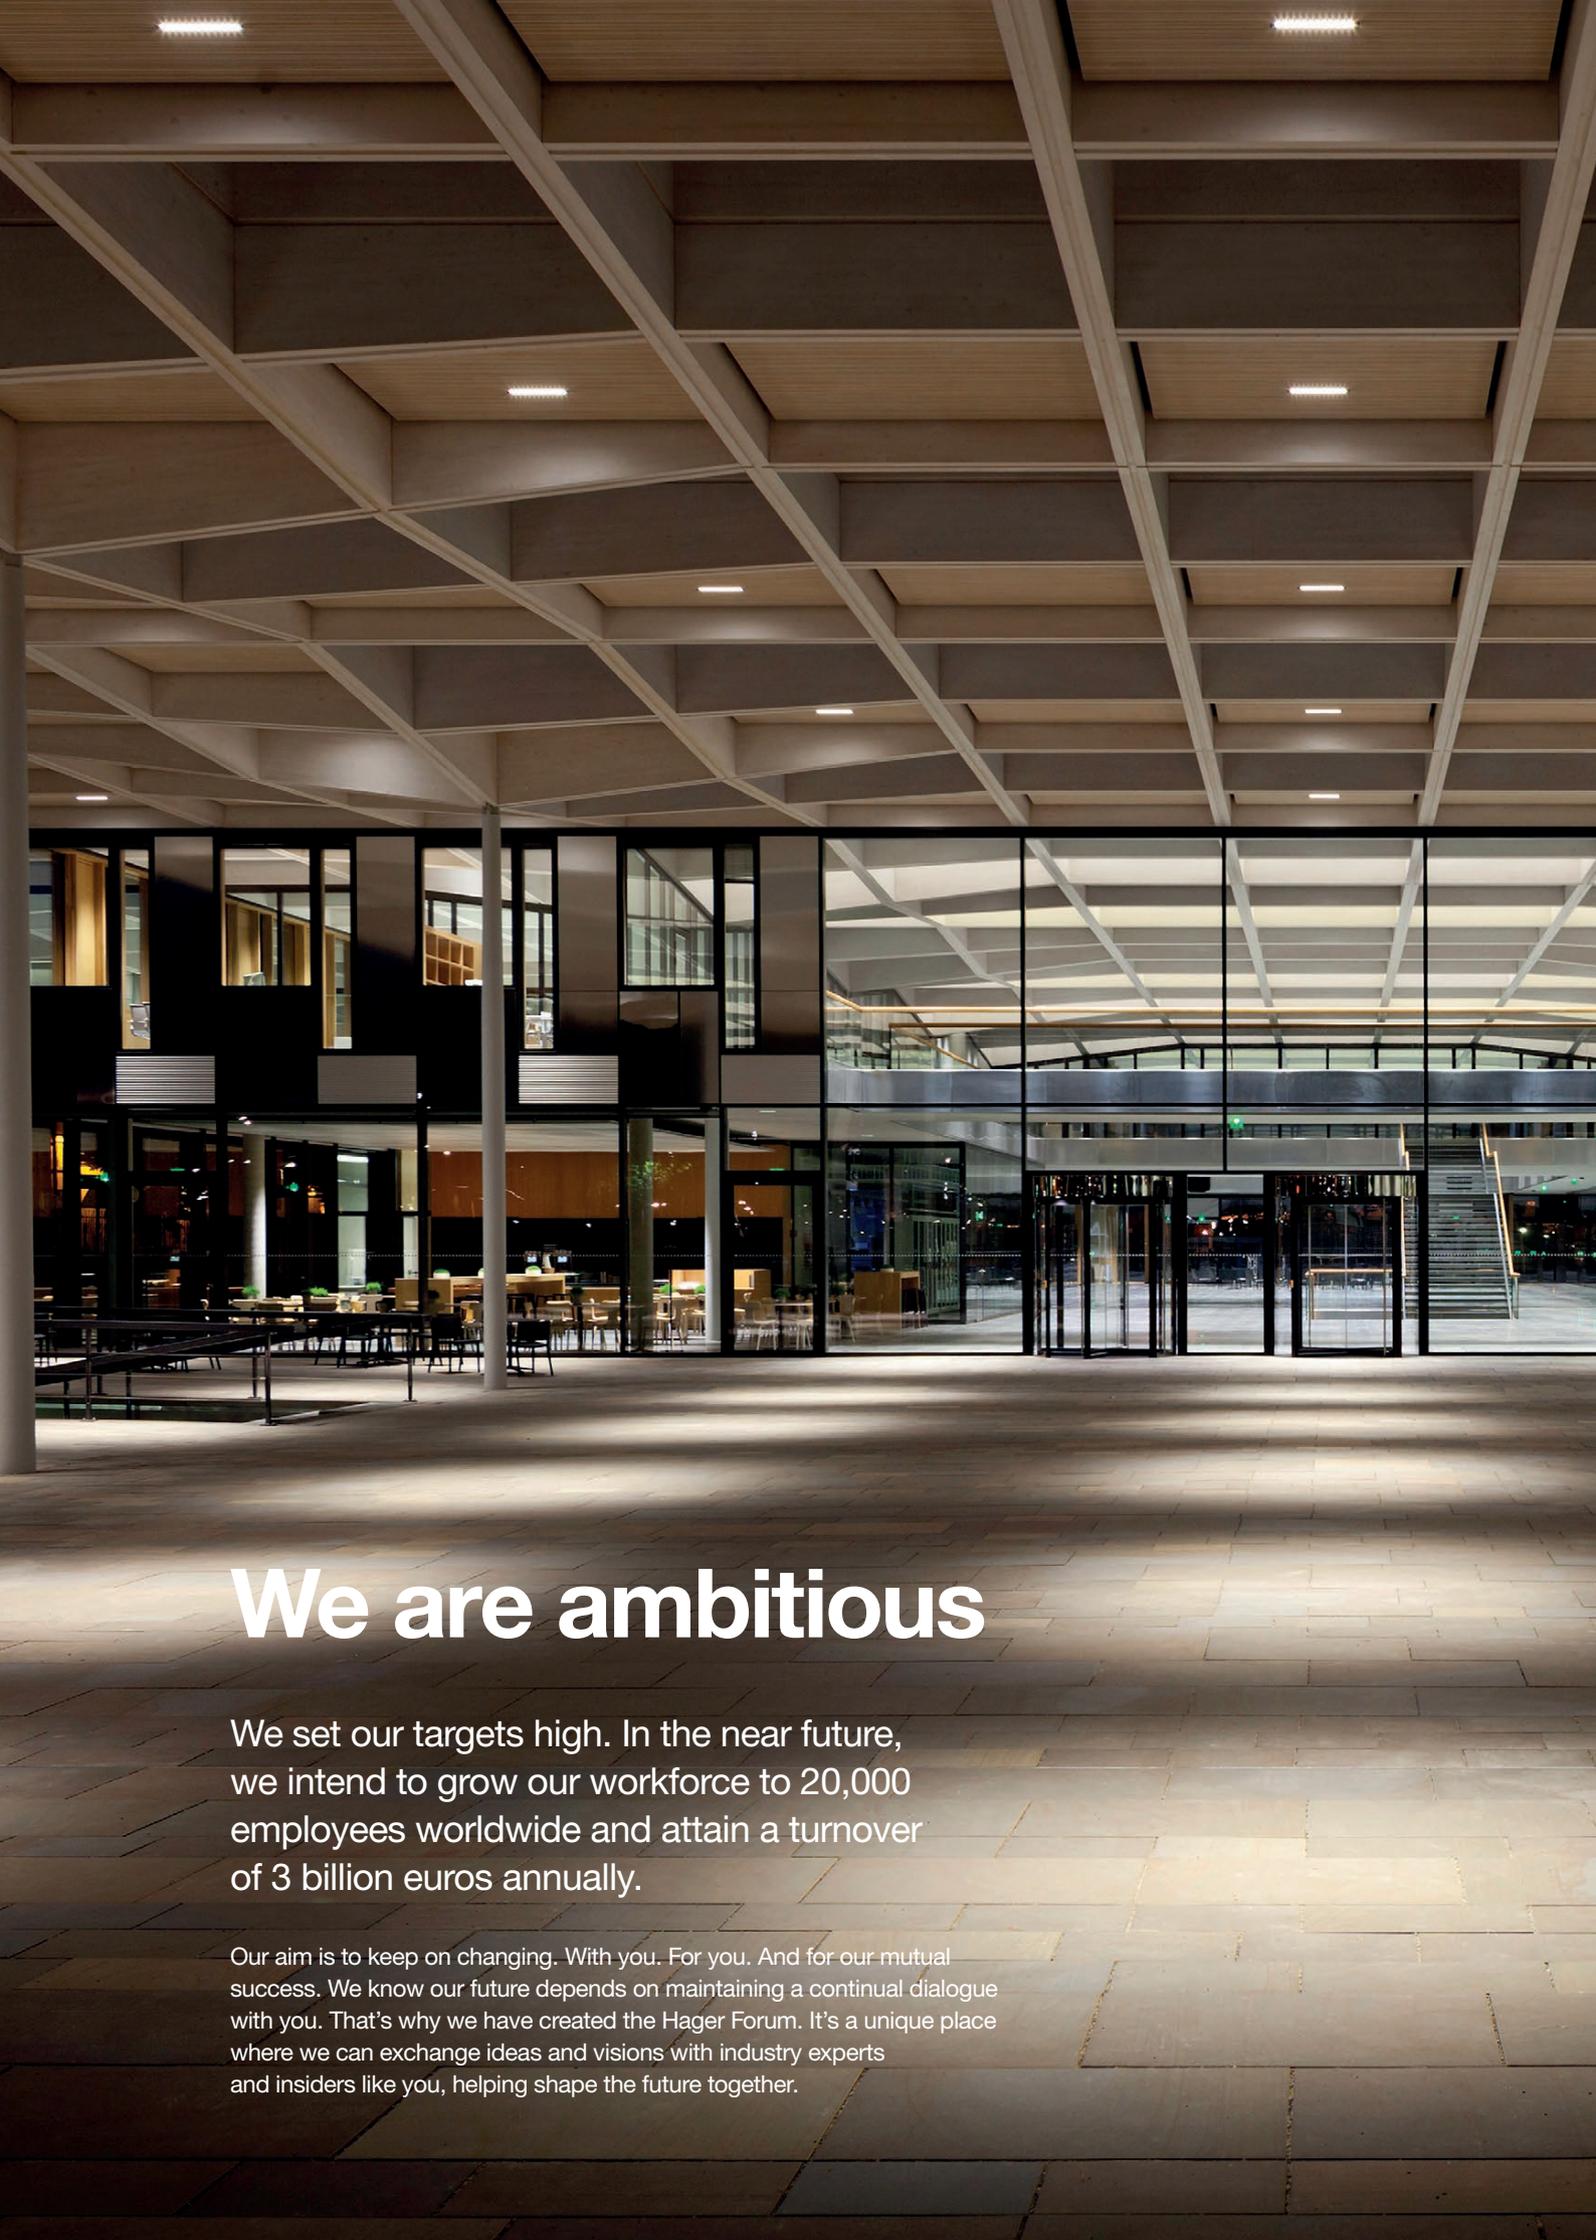

**Intelligent
building
technology**

**Energy
efficiency**

Electromobility

We are ambitious

We set our targets high. In the near future, we intend to grow our workforce to 20,000 employees worldwide and attain a turnover of 3 billion euros annually.

Our aim is to keep on changing. With you. For you. And for our mutual success. We know our future depends on maintaining a continual dialogue with you. That's why we have created the Hager Forum. It's a unique place where we can exchange ideas and visions with industry experts and insiders like you, helping shape the future together.
