tebis KNX and Berker by Hager design, intuitive home automation
ease your daily life
enjoy every single moment
sleep peacefully
understand to act
be sure everything is OK
leave your mind at ease
keep in contact with your home
Enjoy the best lighting level without having to think about it. Do not have to stand up to get your shutters closed. Never mind about a lamp left on in the staircase. Choose the atmosphere to make the moments even more beautiful...

... manage your comfort with your fingertips, or let tebis KNX do it for you.
tebis KNX
intuitive

home automation
Ease your daily life

“do not need to stand up to turn the light on…
keep everything on hand to have control whenever we want.”
tebis KNX home automation, your facility factor
Enjoy every moment

create an atmosphere just by brushing a switch...

give priority to your friends without worrying about technology
tebis home automation, your personal scenographer
Sleep peacefully

Prepare your home to spend a good night... Softly fall asleep without wondering if everything is turned off.
Lights off
Shutters down
Heating in eco mode

eco-friendly
home automation
Understand to act

“visualize your energy consumption room by room, device by device
optimize your consumption to use only what is necessary”
Understand to act

tebis KNX home automation, your financial director
Be sure everything is OK

Centralize all the functions on one single switch... Turn all the lights off, shut the shutters down and set the heating to eco mode without look around the house.
Leave your mind at ease

Close the garage door and turn the alarm on from one single button...
Be sure that your home is safe and doesn’t waste any energy.
Alarm enabled
Garage door closed
Heating in economy mode

Keep in contact with your home

“be instantaneously informed when an incident occurred…
see immediately what is happening to react in time”
tebis KNX home automation, your serenity warranty
Berker by Hager KNX
when technology meets design

There are devices showing more than they can actually do. And there are multi-talented devices, hiding their technical perfection and their user-friendly functionality behind an unnoticed surface.

Berker KNX systems belong to the latest category. What’s more, you can mix them and swap them easily at any time.
Berker B.iQ combines creativity with intelligent technology. Its push-button, which has received several design awards, allows combining multiple KNX functional elements for easy control of intelligent buildings.
With the new Berker TS sensor you can experience a whole new world of switching. A gentle touch of the finger on its glass surface is all it takes to operate lights, blinds, shutters and much more.

Sensor controlled switching becomes a haptic experience par excellence.
TS, TS Crystal & TS Crystal Ball
designer’s choice

It has inspired awe and desire for thousands of years. Designers prize it as one of the most fascinating substance known to man.

Berker now presents an extraordinary switch made from an exquisite material: Swarovski Elements crystal.
Berker Manufacture
Real one-offs

More and more people are following the trend of not following a trend. For these people there is Berker Manufacture. This is where we create switches that are a real blend of high-tech and handicraft, and that are utterly unique. We often design items together with architects and planners for a very particular property or for a special project.
Equipped with new functions such as Sequence and Remote access, domovea gives you easy control of your home through software control and user friendly visualisation.

domovea, the dashboard of your home
Comfort at your fingertips
The quality of a home automation system is judged primarily by the benefits it brings to its users. In terms of comfort, offering several solutions to control the home automation functionality of a house is an asset. Stay connected with your home when you are outside.

“Aapp to date”
The new domovea, iPhone & iPad App can be downloaded from the Apple App Store. It allows local operation via the house network, as well as external control via the Internet. The domovea application is also available for Android phones on Android Market.

Your media centre for audio and video
Mutualize and control your multimedia devices from a single point: manage your home cinema installation, music and radio from any source (DVD, hi-fi, tuner, computer…). With appropriate KNX gateway, you can display and control the sound you like in the whole house.

A window in your home...
Ergonomics and design were well thought of in domovea to help you control your home automation system. Launch of sequences any time from anywhere enables you to control your home even being not at home. Via secure portal of www.domovea.com you can turn off lights remained lit or you can view different locations of your home through IP cameras. You can trigger a predefined schedule at predefined time or at your wish.
tabis KNX in your home

1. **Lights**
   Enjoy the best lighting comfort with tabis KNX! Set up a warm and sophisticated ambience from a single switch or make sure you don’t forget any light on when you are leaving… And select the switch which will highlight your interior design from a wide choice of different colours, surfaces and materials. tabis KNX, your personal designer!

2. **Shutters**
   Close all shutters upstairs or define the best inclination of the blinds… Smart automation provides easy control of all your shutters from any point, be it a switch on the wall, a tablet or a remote control. tabis KNX, your facility factor!

3. **Heating & AC**
   Manage heating and AC intuitively for each single room or for larger areas, program the most comfortable temperature for your habits and switch easily from comfort mode to economy… Thanks to home automation, you no longer need to choose between comfort and savings. tabis KNX, your energy manager!

4. **Alarm**
   Keep contact with your home, anytime, anywhere. Get instant alerts by email for technical or intrusion alarm and check directly the video camera from your mobile. Control your home from any device through internet and activate presence simulation whenever you need it. tabis KNX, your serenity warranty!
