

Small support for TG053 weather station

TG354

Architecture

Fixing mode	surface-mounting
-------------	------------------

Controls and indicators

- with programming button

Voltage

Operating voltage over bus	21 32 V DC
----------------------------	------------

Materials

- powder-coated

Dimensions

Dimensions (LLxwwxhh)	6,5x4,5x4
-----------------------	-----------

LED control

- with red programming LED

Installation, mounting

- for flexible mounting of a weather station

Connection

- with integral bus coupling unit
- with plug-in terminals for power supply
- bus connection via connecting terminal

Equipment

- with heater element for winter operation

Use

- with integral bus coupling unit

Safety

Protection index IP IP44

Use conditions

Operating temperature -30 50 °C

Identification

Main design line KNX

Instructions

- Ensure correct orientation and free-standing installation.
