

## KNX Heating output 6 gang triac 24 / 230V

TYF656T

### Architecture

Bus system	KNX
Fixing mode	Din-Rail

### Functions

- for 1 phase operation

### Controls and indicators

- with programming button and red programming LED

### Voltage

Operating voltage over bus	21 32 V DC
----------------------------	------------

### Power

Total power loss under IN	1 W
Power dissipation per coil	0,4 W

### Materials

Colour	light grey
--------	------------

### Connection

- with integral bus coupling unit  
- bus connection via connecting terminal

### Use

- with screw terminals

### Safety

Protection index IP	IP20
---------------------	------

**Use conditions**

Operating temperature	-5 45 °C
Storage/transport temperature	-20 70 °C

**Identification**

Main design line	KNX
------------------	-----
