

IR motion det. comf 1.1m K.1 polar wh.

85341279

Architecture

| Fixing mode | flush-mounting | |
|--|-------------------------------|--|
| Functions | | |
| - μ-processor controlled mode of operation | | |
| - Teach function for response brightness via button | | |
| - with keylock | | |
| - Party function for switching on for 2 hours | | |
| - with memory function for presence simulation | | |
| - step operation with immunity time (e.g. for stair light/impact current circuits) | | |
| Controls and indicators | | |
| - with button for on/off/automatic | | |
| Power | | |
| - low intrinsic energy requirement | | |
| Measurement | | |
| Relative humidity (without condensation) | 0 65 % (without condensation) | |
| Detection field, rectangular shaped | ~ 12 x 16 m | |
| Reach distance | | |
| Range, frontal | ~ 12 m | |
| Range, side | each ~ 8 m | |
| Detection | | |
| Number of detection levels | 3 | |
| Detection angle, settable | each side ~ 45 90 ° | |
| Materials | | |

polar white

polarwhite

thermoplastic

Colour of design line

Colour

Material

| D | ı | m | е | n | S | 10 | ns |
|---|---|---|---|---|---|----|----|

| Assembling height | 34 mm | |
|---------------------------------|---------------------------------|--|
| Nominal mounting height | 1,1 m | |
| Lighting control | | |
| Response brightness, adjustable | ~ 5 1000 lx , daytime operation | |

LED control

- with operation and status LED, red/green/orange
- LED application module/insert compatibility display

Settings

| Response sensitivity, settable | 10 100 % |
|---|--------------|
| Delay time, adjustable | ~ 10 s 30 mn |
| Switch-off pre-warning to dimming value 50% for | 30 s |

Safety

| Protection index IP | IP20 | |
|-------------------------------|------|--|
| - with dismantling protection | | |

Use conditions

Identification

| Application, usage | Light control, Motion detector | | |
|--------------------------|--------------------------------|--|--|
| Secondary design line(s) | Motion detector, Berker K.1 | | |

Instructions

Continuous direct sunlight penetrating the upward-pointing detection plane can result in failure of the motion detector.
Only suitable for indoor areas!
